

# Startup Success Blueprint

Clear checklist guides you step-by-step from startup business planning to launch.

## I. Develop Your Business Plan

- Business Description
- Market Research and Competitor Analysis
- Financial Projections
- Company Structure and Operating Plan
- Goals, Objectives, and KPIs

## II. Estimate Startup Costs

- Create a detailed startup budget
- List one-time and ongoing expenses
- Set up a dedicated savings account for funds
- Research grants and funding opportunities

## III. Register Your Business

- Select a business structure (e.g., LLC, S-Corp)
- Choose and register a business name
- Claim your domain and social media handles
- Complete all necessary registrations and legal formalities

## IV. Set Up Financial Systems

- Set up bookkeeping software or Hire one
- Prepare essential financial documents (income statements, balance sheets)
- Plan for taxes and other liabilities

## V. Implement Management Systems

- Create an organisational chart
- Employ project and team management tools
- Establish clear short- and long-term goals
- Monitor and adjust KPIs as needed

## VI. Obtain Licences and Permits

- Open a business bank account
- Acquire an Employer Identification Number (EIN)
- Secure all necessary local and industry-specific licences and permits

## VII. Launch Your Brand and Marketing

- Develop brand guidelines and design elements
- Build and launch a professional website
- Create engaging content for site and social media
- Design and print business cards
